

LaGrippe,

Followed by Heart Disease, Cured by
DR. MILES' HEART CURE.

M. R. C. SHULTS, of Winterset, Iowa, inventor and manufacturer of Shulte's Safety Whiffletree Coughing, writes of Dr. Miles' Heart Cure. "Two years ago an attack of LaGrippe left me with a weak heart. I had run down in flesh to mere skin and bone. I could not sleep lying down for smothering spells; frequent sharp darting pains and palpitation caused a constant fear of sudden death, nothing could induce me to remain away from home over night. My local physician prescribed Dr. Miles' Heart Cure and in a few days I was able to sleep well and the pains gradually lessened, and finally ceased. I reduced the dose, having gained fifteen pounds, and am now feeling better in every way than I have for years."

FALL OF M. DUPUY

French Ministry Suffers Defeat in the Chamber of Deputies.

PREMIER IS SURPRISED

At the Cordiality With Which President Loubet Accepted the Cabinet's Resignation—All Parties in the Deputies Were Determined to Get Rid of M. Dupuy.

Paris, June 13.—President Loubet yesterday accepted the resignation of the Dupuy cabinet. The premier and his colleagues were induced to resign because of a vote taken on the interpellation of M. Vaillant, Socialist, as to the government's instruction to the police Sunday evening during the riot. M. Dupuy's answer being unsatisfactory a vote was taken on an order of the day supported by the government, which resulted in its defeat—321 to 171. The ministers immediately left the chambers amid a great uproar.

The interview between M. Dupuy and his colleagues and President Loubet was brief but cordial. The president expressed his thanks for the support he had received from the retiring ministers, adding that he would always remember their services gratefully. M. Dupuy was agreeably surprised at M. Loubet's cordiality.

There are already many surmises as to the composition of the new cabinet, but it is pointed out that as the Dupuy ministry did not fall on a question involving the political complexion of the ministry it is difficult to see on what basis the new cabinet will be selected.

Of the statesmen already named in parliamentary circles in connection with the premiership of the new cabinet, those most frequently mentioned are M. Raymond Poincaré, deputy for Meuse, who was minister of public instruction at the time of the Dreyfus court-martial and who testified before the court of cassation that M. Dupuy had recently said to him: "I think we are the victims of a big hoax in 1894;" Theophile Delcassé, minister of foreign affairs in the retiring cabinet; Henri Brisson, who was M. Dupuy's immediate predecessor in the premiership; and Senator Pierre Waldeck-Rousseau, who was minister of the interior in the cabinet of Gambetta in 1881 and again in the Ferry cabinet in 1883.

The fall of the cabinet was probably as little a surprise to M. Dupuy himself as it is said he looked rather for a presidential crisis, and had an eye on the presidency for himself. The crisis has come, however, rather sooner than he expected.

M. Dupuy is blamed, first, for not preventing the anti-Loubet demonstration at Autenil, which, it is held, he might easily have done; and second, for overdoing the military preparations at Longchamp, as if to show that Loubet dared not show himself in public without an army to protect him. Dupuy's idea was probably the same in both cases—to discredit the president in the eyes of the nation.

ALL PARTIES
Were Determined to Get Rid of M. Charles Dupuy.

Paris, June 13.—The vote in the chamber of deputies yesterday clearly demonstrated the existence of a majority, including members of all parties, who were determined to rid themselves of the premiership of M. Charles Dupuy. The interpellation of M. Vaillant was simply a cleverly selected pretext to conceal the real cause of the approaching crisis.

Socialists and Radicals alike are satisfied with what they have considered the contradictory attitude of the Dupuy cabinet in the Dreyfus affair. The Moderates hope to secure the return

What a difference there is in women! The actual number of years they have lived seems to have little to do with their looks. Some women at 45 look and act younger than others at 30. Their eyes are brighter, their complexion fairer, and there are not nearly so many wrinkles. Old Father Time deals gently with a healthy woman, but

when a woman is run-down with the drains, pains, displacements and weaknesses peculiar to her sex, ages fast. The wrinkles come early. The roses in the cheeks vanish, and an unwholesome pallor spreads over her features. She becomes nervous, peevish, fidgety. She loses flesh, and drags about in a most miserable state of body and mind. Such a sick woman needs Dr. Pierce's Favorite Prescription. This medicine will restore the looks of younger days by strengthening her in a womanly way. It will do what powders and paints and "beautifiers" can never do. It is a non-alcoholic and non-narcotic preparation. The stimulation and strength it imparts are permanent. It cures all the distressing ailments commonly called "female troubles." There is no other remedy so good for this purpose. When a medicine dealer urges upon you something else as a substitute for it, he is attempting a personal injury. Never take any substitute for Dr. Pierce's Favorite Prescription.

"I have been in poor health more or less all my life," writes Mrs. M. E. Long of Le Loup, Franklin Co., Kans. "A specialist said I had malarial fever of the womb and that an operation would have to be performed. At last I wrote to Dr. Pierce asking advice. I received an answer advising me to try his medicine, his 'Favorite Prescription.' 'Golden Medical Discovery,' and also his 'Pleasant Pellets.' In one month I gained eight pounds. After taking two bottles of each medicine I began to look like a woman and not like a wasted skeleton. That weary, tired feeling has all left me."

of M. Meline to power. The Revolutionaries, Nationalists and anti-Semites hope, in their opposition to M. Dupuy, to find a more tolerant man in his successor. This is the explanation of voting, resulting in the downfall of the cabinet. The supporters of the government only numbered 173, recruited for the most part from the ranks of the Moderate Radicals.

Many deputies agree that the Dreyfus affair is largely responsible for the cabinet's downfall. All the Royalists and many Radicals demand that their share of the responsibility must be brought home to General DeBosdet and General Mercier. At the same time those taking this view have been all along persuaded that M. Dupuy would never proceed to that extreme. Accordingly they seized upon M. Vaillant's interpellation as a means of expressing their defiance and distrust of the Dupuy ministry.

CRANK ARRESTED

Who Wanted to See the President About a Postoffice.

Washington, June 13.—A respectable dressed, elderly man, who gave his name as J. C. Dickey, was arrested in front of the white house yesterday afternoon and driven to police headquarters, where he was questioned by Inspector Boardman. He said his home is at Sandy Hill, N. Y.

The stranger asked if he could see the president and said something about being an applicant for the postmastership of Sandy Hill. It was stated at headquarters that he was arrested because he answered the description of a man who had escaped from the insane asylum of Washington county, N. Y.

DR. M'GIFERT'S

Books to Be Examined by a Commission of New York Presbytery.

New York, June 13.—Professor McGiffert of Union Theological seminary, whose books of higher criticism have caused so much discussion among the Presbyterians, because of his differences of opinion with the confession of faith touching the inspiration of the bible, the divinity of Christ and the Lord's supper, will have his books and papers looked into by a commission appointed by the New York presbytery. This action was taken on a message received from the general assembly. The report of the commission will be made on the orthodoxy of Dr. McGiffert's books not later than next November. In their message the general assembly accepted Dr. McGiffert's explanations of his beliefs as sincere, but still considers his book as contrary to the confession of faith. The general assembly suggested that the presbytery deal with the case as best it saw fit.

BANKER BENEDICT

His Disappearance a Greater Mystery Than Ever.

Athens, Ga., June 13.—The disappearance of Banker John A. Benedict of this city, is apparently a greater mystery today than it has been at any time since he was last seen at Greenville, S. C., May 28. A letter signed Anderson D. Miller has been received here purporting to give the circumstances of a meeting between the writer and Benedict at Portsmouth, Va., on Sunday after he left Greenville. This letter would indicate that Benedict was on his way to Washington, laboring under the delusion that he had some invention that he must get patented.

A TERRIBLE STORM

Town of New Richmond, Wis., Almost Wiped Out by a Tornado.

CARRIED RUIN AND DEATH

In Its Path Through the Principal Street and Every Business House in the Place Wrecked—Cyclone Followed by Torrents of Rain—Impossible to Give List of Dead and Injured.

Minneapolis, June 13.—A special to The Tribune from Stillwater, Minn., says New Richmond, Wis., was almost wiped out of existence last evening by one of the most severe cyclones that ever visited that locality. It carried ruin and death in its path and it is impossible to give a even partial list of those who are seriously injured. It is thought many are dead. The news of the disaster was brought here by J. A. Carroll, a traveling man from Portage, Wis., who was stopping at the Nicollet House in New Richmond when the cyclone struck. He saw the funnel-shaped cloud as it came up the principal street and took refuge in the basement of the hotel, which was completely wrecked together with every businesshouse in the city.

In terrible sheets of rain following the cyclone, Mr. Carroll and his comrades succeeded in recovering the proprietor, Charles McKennon, wife and one child from the debris, and they also recovered the laundry girl, who was so seriously injured that she will probably die. They also removed two men named Barrett and Newall, who were very severely injured. Mr. Carroll drove to Stillwater by team for relief, and a train with doctors left for the village.

Mr. Carroll further says that fire followed the cyclone and that what was left is being consumed by fire. Many people were doubtless killed and the damage will run into hundreds of thousands of dollars.

Another Report From New Richmond.

Burkhardt, Wis., June 13.—A messenger has reached here from New Richmond seeking doctors and help. He says that the storm struck that town and a large number were killed and wounded. The railroad officials endeavored to get out a special train, but on account of the washouts were unable to do so, and the doctors and many others started across the country as fast as horses could safely carry them. Three traveling men, who drove from River Falls to Hudson, were struck by the storm and the rig was torn to pieces, one named Vollman having one of his legs broken.

House and Barn Blown Flat.

Hudson, Wis., June 13.—A cyclone passed two and a half miles southeast of here last evening and Harry Mattison's house, barn and all his farm buildings were blown flat. The family were in the cellar and no one was hurt. The cyclone crossed the Omaha railroad east of North Wisconsin junction and struck a new barn of Edward Daileys, blowing it all to pieces. No one was hurt. The cyclone continued in a northeast direction.

Heavy Rainstorm.

Minneapolis, June 13.—One of the most severe storms that ever passed over Minneapolis prevailed here last evening. For fully an hour midnight darkness fell over the city and the sky had all the appearance of a tornado. There was very little wind, however, but an immense volume of water fell, the gauge showing 2.34 inches. So far as learned no damage, other than the flooding of basements and floating of pavements, resulted from the storm.

Tracks Washed Out.

Chicago, June 14.—The tracks of the Chicago and Northwestern railway are reported washed out between Le Roy, Wis., and Rochester, Minn. The ticket agent here is under instructions not to sell tickets north of Le Roy.

MARCHAND HUSTLED

Major Has Become Tired and Declares He Will Go to Sea.

Paris, June 13.—Major Marchand is being hustled about in lively fashion. When he was hurried from the capital by the government to avoid unpleasant developments, he started to see his parents in his native town of Thoissey, but the crowds who received him imploringly explained that they wanted to give him a heroic reception, but had not expected him yet. The mayor and corporation were not ready, and would he kindly take the next train somewhere else pending the preparations. He went to Macon, where he disconsolately waited in a local hotel. He is already tired of this, and means to cruise in a government vessel in the English channel until June 28, when Thoissey hopes to be able to receive him.

An extraordinary find of great interest has just been made in the attic of an old house in process of demolition. It consists of a collection of the skeletons of about 400 freaks of human nature, gathered together by the famous naturalist Daubenton a century ago. The framework of every imaginable horror of the Cour des Miracles, so masterfully described by Victor Hugo, figures in this marvelous collection, which has been secured by the government, which proposes to show it for the first time to the public in the department of anatomy at the international exhibition next year.

EXPLOSION

In a Powdermill Ruins the Factory and Kills Two Men.

Marietta, O., June 13.—The factory of the Marietta Torpedo company blew up yesterday and at least two men were killed. Two men were seen there with horses when the accident happened. Clyde Porter and Cal Harte, aged 45 and married, were killed.

The factory was totally ruined. There were only 16 quarts of nitro glycerin in the factory and more was being received.

The explosion shook windowpanes all over the city. It was reported that the family of William Whittiken, a rich oil operator, consisting of himself, wife and two children were killed, but proved to be untrue.

Two horses and a wagon were blown to atoms. Trees for 300 yards were stripped of foliage and the limbs of some trees were strewn with the flesh of the two men and of the horses. A large hole in the ground where the explosion occurred through the carelessness of Porter, who was unloading the nitroglycerine. Cal Harte has a daughter on the stage, but her whereabouts are not known here. Although the torpedo works are three miles west of this city, yet every house in the town was shaken by the explosion.

Don't forget to visit Stout's dog and horse show the best thing of the kind on the road. His trained horses are wonders, and the tricks they perform are marvelous. The decided hit of the show, however, is the antics of his trained pigs. This feature alone is worth double the price of admission. Go and see it Thursday afternoon and evening. It will pay you as Stout gives you your money's worth, in three hours of solid fun. 1313

HARRIS TELLS HIS STORY

Which Differs Materially From the Story of Eye Witnesses.

The Salem Journal publishes an interview with Dave Harris in the jail at Salem yesterday. It says:

"We spoke to him in regard to the dispatches to the city papers and asked him if it was a case of self-defense. He showed us an immense, ugly-looking bruised place on his right wrist, a lighter one on his left breast and spoke of being struck in the left ear, insinuating that it must have been a case of self-defense. He didn't know for a certainty whether it was a club or a whip with which he had been beaten. Brown, the man he killed, is a large robust man, weighing about two hundred and he and Harris had always been good friends, Brown being employed by Harris many times. Nothing unpleasant had ever come up between them. Brown had been away from Seymour for some time, and while Harris did not try to impress the idea, it would seem from his talk that when Brown left he imagined that everybody was down on him and possibly fancied that Harris was also against him. Harris said that he was still friendly to him, and when a report came to Seymour some time ago to the effect that Brown had been either hurt or killed in a refrigerator car up north, he was the first or among the first, to subscribe money to have him brought home. The report was false and Brown came in just a few days ago. Saturday evening was the first time Harris had seen him and hollowed some pleasant salutation when he was a short distance up the street. Brown replied, "Oh don't talk to me that way!" and passed on. Harris thought no more of the matter until a short time after when Brown slipped up behind him and began to beat him over the head with some kind of a weapon. Harris ward off the blows the best he could and pulling out his revolver shot once in the air, thinking to scare off his assailant. He didn't scare and a second shot killed him. Harris says that he isn't afraid of any mob coming after him.

"The prisoner talked in a free and easy manner and told his story in a straightforward way. He also said that while Brown was striking him with the club or whip he kept saying that he would kill him. Harris's shirt was torn considerably. He neither talks nor acts as we think a cold-blooded murderer would. When we left he was in good spirits and was joking with a fellow prisoner who was preparing to shave him."

An Erroneous Report.

The Sentinel reporter from Seymour lays heavy blame on Night Policemen Hopewell for not capturing Dave Harris on the spot when the shooting was done Saturday evening. Mr. Hopewell says he was standing on Abel's grocery corner at the time. His attention was directed elsewhere when the first shot was fired but he started as soon as he heard it on a run in that direction. He left the curb just as the second shot was fired when Harris' horse was already started on the run away from the spot. When he reached the place of the shooting Brown was falling and he caught him and quickly laid him down. By this time Harris was a good distance up the street. The whole affair was done so quickly that there was no chance to catch Harris who was driving away from where Hopewell stood. Hopewell had his gun with him but it would have been quite reckless for him to begin shooting into the crowd from where he stood and thus run the risk of hitting an innocent person.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, Mrs. MARY A. BEARD, Claremore, Ark. For sale by C. W. Milhous.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides, one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. For sale by C. W. Milhous.

Soon screams were heard, and she was found with her clothing in flames. It is the supposition that she applied a lighted match, with suicidal intent. She lived but a few hours.

CRUSHED BY FALLING SLATE.

Clinton, Ind., June 18.—George Anderson, a miner in the Lyford mines, was crushed by falling slate yesterday. His parents live at Carbon, and he came here 10 weeks ago. This is the third fatal accident in that mine within three weeks. Two other miners have been badly hurt.

SPARK FROM AN ENGINE.

Terre Haute, Ind., June 18.—Fire at Perryville, north of this city, destroyed the large elevator containing 6,000 bushels of corn, the Chicago and Eastern Illinois railway station and several freightcars. The fire originated from a spark from a passing engine. The town was saved with difficulty.

ALL WOMEN AGREE.

A druggist in Macon, Ga., says: "I have sold a large quantity of Mother's Friend, and have never known an instance where it has failed to produce the good results claimed for it. All women agree that it makes labor shorter and less painful."

Mother's Friend

is not a chance remedy. Its good effects are readily experienced by all expectant mothers who use it. Years ago it passed the experimental stage. While it always shortens labor and lessens the pains of delivery, it is also of the greatest benefit during the earlier months of pregnancy. Morning sickness and nervousness are readily overcome, and the infant relaxes the strained muscles, permitting them to expand without causing distress. Mother's Friend gives great recuperative power to the mother, and her recovery is sure and rapid. Danger from rising and swelled breasts is done away with completely.

Sold by druggists for \$1 a bottle.

The wheat in this neighborhood promises an average crop. Calvin Tabor and family visited Uncle Sam Mahurin at Clear Spring Saturday, and while there purchased a forty acre farm. Consideration \$160. The correspondents reunion, to say the least, was a grand affair. We all enjoyed ourselves. Many thanks to W. F. Peter and Cox's pharmacy for ice cream soda to the crowd, also to Dr. Drybrough for his kindness in showing us the X-ray and other interesting objects. We can say to the correspondents who were not there that they missed a great treat.

The fallow, colorless-looking people you often meet are afflicted with "kidney complexion." Their kidneys are turning to a parsnip color, so is their complexion.
